

OPENING OF THE STADIUM AT CAMP CODY, FIRST ATHLETIC STADIUM FINISHED IN ANY ARMY CAMP

ABOVE is a photograph of the crowds attending the dedication of the Camp Cody athletic stadium last week. It is the first athletic stadium completed in any army camp in the United States. The insert is a picture of Maj. Palmer D. Sheldon, athletic officer of the division, also division post exchange officer. The picture was made by the Richards Film Service, Inc., staff photographers for The El Paso Herald.

COMMISSIONS TO SIX EL PASOANS

Boys in the Coast Artillery Company at San Francisco Are Lieutenants.

All the El Paso boys in the coast artillery training camp at Fort Winfield Scott, San Francisco, Cal., came out on top after examinations for commissions in the reserve army. A telegram to The Herald from F. H. Cunningham said at noon Saturday. Following are those who received commissions as lieutenants in the coast artillery:

F. H. Cunningham, member of Otis Elevator company; Norman J. Morrison, son of Mr. and Mrs. James S. Morrison, 180 Arapaho street; B. L. Meese, clerk at El Paso Smelter; J. F. Matthews, El Paso; R. M. Carrington, El Paso Foundry and Machine company; J. E. Baker, city; Lieut. Cunningham's message said the boys had been ordered on active duty at once.

ALL B. 59 TO 60 STARS ON HIGH SCHOOL SERVICE FLAG

Historic 59 or 60 stars on the high school will fly a beautiful service flag, adorned with stars according to the number of students who, within the memory of the present members of the school, are now serving. It is planned that the boys will not be counted who graduated before the year 1912. A proud record of honor inscribed with the names of these patriotic men will be hung in the high school lobby. The names, the year in which they graduated, and the units of the military service in which they are serving will be on the roll.

SEVEN GO TO NAVY. Men accepted at the United States naval recruiting station Saturday were as follows: Tom Morrison Kerwick, Loyd DePries, Charles E. Pollock, Fred James McKnight, seaman; Julius W. Poole, Telma Toole, Oscar Uriah Durham, Brown. The men have been sent to San Francisco.

Women's Black Calf Gray Buck Top Shoes

THE insistent call for something new in women's footwear has produced this particular style. Beautifully made of selected leathers. The vamps are cut from good, serviceable Gun Metal stock, the topping is of a medium dark Gray Buck—blind eyelets—imitation wing tip, welted soles—and the new medium low heel. It will appeal to the woman who desires the newest in footwear.

Price per pair is \$7.50

203 MESA AVE.

MEASLES IN EL PASO CAMP

Selective Draft Men at Travis Again Guarding Against Contagion.

Camp Travis, Texas, Nov. 24.—The quarantine on the 1st railroad company at Camp Travis is very much like Flannigan's message, it is "off again, on again." A case of measles is the cause of the company being quarantined again, five days after the first quarantine was lifted.

Every precaution is taken to keep down the spread of disease. The bunks are carried out of the dormitory each morning and the bedding aired and sunned all day and the floors are mopped with caustic soda to keep down dust and germs. This extra work and the privilege of being to the canteen and to town being revoked immediately the boys somewhat but good nature prevail and everyone wears a smile instead of a frown. The regular program is not interfered with and the boys are kept pretty well interested. No one is allowed to drag or go slack on his duty, the maximum of mental alertness and physical agility being the keynote of all drill exercises.

Ride, Shoot and Swim. Every man in the company is being taught to ride, shoot and swim. Many of the uninitiated are taking some bumps from riding, while many boys who thought themselves "middle wise" because of ranch experience, are being taught a few things Uncle Sam says they do not know.

The business desk of a backing seems to be too much for Kid Papp—he says to himself because he is confined to quarters during a broken index finger on his right hand. William Vance Hull, of movie and stage experience, and from El Paso, is assigned to headquarters company as tagger.

Meals Served Table d'Hote. The company meals are now being served table d'hote on squads instead of cafeteria as formerly. The purchase of some dishes with money from the company fund brought about the change.

Home U. Edwards is writing allotments and government insurance and reports that practically all the boys are taking advantage of the protection that is provided by Uncle Sam at such low rates. Most of them are taking the limit of \$10,000 while many others are heavily in Liberty bonds and cannot take so much.

Billy Gibbs, linotype operator with The El Paso Herald until the selective service act of May 18, 1917, changed his address, says he is getting some good experience with rifles and shotguns at the company stable.

Charles W. Lehmeier, assistant cashier at the El Paso National Bank office while in civil life, now has a job as assistant to the company clerk, Corp. Aubra M. Cadiz.

Joe Ritz likes the army because kitchen duty agrees with him. First week at the camp is making him fat.

Corporal Roy F. Jones, who did "threes" at the Malesic theater in El Paso before coming to Camp Travis, says he would be satisfied to do "sixes" to get back.

Picture of El Pasoans. A big panoramic picture was made of the company recently and Sgt. Murray Johnson charges Sgt. William F. Aubrey and mess Sgt. Cole K. Brunner with being so anxious to get their chevrons in the picture that they completely covered his up.

Private Thomas C. Gunning, who operated a drug store in Alta Vista, El Paso, before becoming a soldier, stood guard in the rain one night recently and says he picked up enough "black wax" on his feet to cover up Justice.

George L. Mittendorf, formerly a fireman on the G. H. & S. A. out of El Paso, is attending the school for lieutenants at Fort Bliss, N. M., El Paso, Texas, and is acting corporal.

Assistant George B. Scharrff, sales man for the Colorado Fuel and Iron company before leaving El Paso, has made a donation to the office where training camp at Leon Springs. George made a mistake recently and held his teeth with glue from a tube he thought contained tooth paste. A painful mistake indeed, but

Three Boys From El Paso as Military Police, Now on Duty at Camp Travis

FROM left to right, the boys shown in the above picture, made at Camp Travis, San Antonio, are Oscar Gebler, Otto C. Hintze, and Paul Stein. Stein, who is with the El Paso smelter, was exempted after going to the camp and is now back in El Paso. Gebler formerly worked in The Herald office as a printer.

George is a good sport and never missed his mouth. Private Robert James whose face is familiar to those patronizing outdoor lunch counters in El Paso, is nursing bruises about the face and shoulder the result of being thrown from a horse.

The army Y. M. C. A. is a boon to the boys in camp, ice water, reading material, games, music, movies and writing material is furnished the boys free of charge. Too much cannot be said of the army Y. M. C. A.

Men Selected in El Paso and Culberson to Mobilize Lawyers. Austin, Tex., Nov. 24.—Gov. W. P. Hobby today, through the central legal advisory board, announced that personnel of the various county advisory boards throughout the state, there being three members to each board and one board for each of the 256 counties in Texas.

These boards are to mobilize the lawyers in the respective counties to assist, free of charge, the registrars under the selective draft in the preparation of their questionnaires.

This is the personnel for El Paso and Culberson counties: El Paso county: W. W. Tarney, J. L. Dyer and J. F. McKenzie. Culberson county: A. J. Green, J. C. Hunter and Don M. Daugherty, all of Van Horn.

AMERICAN ARMY WILL HAVE FIRST CLASS TANKS. Washington, D. C., Nov. 24.—Thanks for the American army are expected to be as effusive in every way as those used by the British in their recent drive, it was learned today, although no details of construction or as to the number of machines being built were available. There is every reason to believe that substantial progress has been made in producing fighting machines that embody all that the British and French authorities have learned of this type of war engine.

WILL CANVASS VOTES CASE IN RECLAMATION ELECTION. The board of governors of the El Paso Valley Water Users' association and the board of directors of the El Paso County Water Improvement district No. 1, will meet Tuesday morning in the Mills building, at which time they will make an official canvass of the votes for and against the contract with the government at the recent election. The election carried.

TONY WORKMAN SAYS U. S. NEEDS AIRPLANE MECHANICS

Tony Workman, formerly in the automobile repair business in El Paso, who left here several months ago to return to his home in Oklahoma City, is now in the service of the United States government at Hammond, Okla., N. Y. Writing a friend in El Paso, he says: "I am working here in the Curtiss airplane factory. Until just recently I have been working as a motor tester, but have been promoted now to special trouble mechanic in the motor test department. The war seems so much nearer to me since coming here, because all the talk that you hear is about the war and the sacrifices that will have to be made before it is over and no one seems to think that it will end for several years yet. "One of the greatest present needs of the government is more mechanics in the airplane industry and for field service."

ARMY ACCEPTS RECRUITS FOR MANY ORGANIZATIONS

Men accepted at the local army recruiting station Saturday were: Regular army: P. J. Brooks, coast artillery; C. H. Koch, D. G. Wright, B. D. Smith, aviation; national army: Joe Lottinson, 29th engineers; H. C. Haynes, 26th engineers; L. B. McMillan, engineers; J. C. Boden, 21st engineers; Odell Newton, engineers; J. H. Johnson, 26th engineers; L. A. Hirshey, 25th engineers; K. G. Salter, signal corps; A. G. Irving.

ONLY TWO CLASSES NOW, "PATRIOTS AND TRAITORS"

Amarillo, Texas, Nov. 24.—Congressman Marvin Jones, of Amarillo, says that he was slow in being convinced of German atrocities, but now believes that America has only two classes: "We are either patriots or traitors." During his vacation, congressman Jones has been speaking either in the interest of Liberty loan, food conservation or the Y. M. C. A.

GEN. SIBERT'S SON IS 12TH INFANTRY PRIVATE

San Francisco, Calif., Nov. 24.—The identity of Pvt. Martin D. Sibert, 12th U. S. infantry, increased in prestige today, following the disclosure here that he is the son of Maj. Gen. Willam L. Sibert.

Young Sibert, without the knowledge of his family, enlisted at Manhattan, Kansas, and was written down an uninitiated recruit for service in the Philippines. When his paternity was discovered he was sent to the 12th infantry as a full fledged private.

Earl Weisiger Is U. S. Army Flier

EARL H. WEISIGER, of 2719 East Boulevard, is another El Paso boy who has joined the aviation branch of the service. He graduated at the Military School of Aeronautics at Austin on Nov. 17, and was ordered to report immediately at Garden City, Long Island, from which point he expects to go to France, where he will finish his flying training. He is the son of S. F. Weisiger.

"Childering" Plans for \$200.00. Increased case. Second hand, but good condition. Payments \$2.00 per week. El Paso Piano Co. Everybody's former friend.—Adv.

HIGHEST SICK RATE IS AT CAMP TRAVIS, TEXAS

Washington, D. C., Nov. 24.—The highest sick rates reports come from camps at which southern troops are training. The rate in the national guard is 2.5 a thousand, compared with 2.5 for the national army men. The highest rate was at Camp Travis, Fort Sam Houston, Texas, where measles is increasing. The rate is 11.9 a thousand. Camp Meade at Annapolis Junction, Md., shows the cleanest slate, with a rate of 3.1. The national guard camps where conditions are not as good as the previous week are at Greenville, S. C.; Mason, Ga.; Fort Worth; Hattiesburg, Miss.; and Alexandria, La., and Fort Sam Houston. Measles are given as the cause. The national army camps set up to the standard of the previous week are at Columbia, S. C.; Fort Riley, Kan.; and Fort Sam Houston.

WOOLFORD F. SWANSON IS MADE LIEUTENANT AT BOWIE

Of three El Paso boys recently promoted at Camp Bowie, Fort Worth, Woolford F. Swanson, son of Mr. and Mrs. Axel Swanson, 1908 Macfarlin street, got his second lieutenant's commission, according to word received by the family. Young Swanson is a Texas infantry, a sergeant under Capt. W. T. Downing. He enlisted as a private in company A, First Texas infantry, formed here under Capt. Richard F. Burgen, was made a corporal in a week, a sergeant in two weeks and after a month in Camp Bowie was made second lieutenant.

ALL EXPECTATIONS ARE MET IN TRANSPORTING TROOPS

Washington, D. C., Nov. 24.—Secretary of War Baker has issued a statement declaring that as many American troops have now been transported in France as the department had originally expected to have there by this time. All expectations therefore had been met. How transportation would go forward in the future would depend on the availability of ships, he said. The secretary did not state how many troops have been sent to France. Mr. Baker is taking up with proper officials the matter of relaxing the regulation prohibiting mentioning units in France.

The Man and Woman With Money Knows It

It makes a real Thanksgiving

The reason why the man and woman with money has a real Thanksgiving is because they STARTED to bank their money a long time ago and are now reaping the harvest of their early thrift. They are thankful that they didn't SQUANDER money on extravagances or put it into some "Get-Rich-Quick" scheme. They are thankful they BANKED it. Are you thankful that you have banked your money?

MOTOR SHOPS GET 500 MEN

Picked in Vocational Census in Army, Tradesmen Fill Many Vacancies. Five hundred men of the national army, selected through the recent card index classification made of all drafted men, are expected to arrive at Fort Bliss in the near future to be employed at various trades in the motor truck repair shops there.

The selection of these men from the ranks of those sent to the various camps is an illustration of the success of the card system in determining the lines of army work for which men are best qualified. Special ability possessed by these men as machinists, wheelwrights, carpenters, welders and at other trades was disclosed. This gave the army authorities a body of skilled workmen to draw from, and at the same time gave the men selected a chance for promotion.

Gives Privates a Chance. For instance, as is pointed out, a soldier of the national army coming to Fort Bliss as a private with only \$10 a month will be promoted to sergeant with pay of \$44 per month in case he qualifies in his work as a skilled mechanic.

Quarters are being prepared for the men at Fort Bliss, but the exact time that they are coming and the places from which they come are not known at present.

These men will take the places of 350 men recently discharged from the shops. The latter will be furnished transportation to Rock Island, Ill., where they will be given work in the United States arsenal by applying to 1st Lt. Otis Mintner at the Ordnance department, Fort Bliss.

WORK FOR EXPERT MEN. Any competent machinist or tool maker out of work and desiring employment with the government may find it at Rock Island, Ill., in the arsenal there. Lieut. Otis Mintner, at the Ordnance depot at Fort Bliss, received this information Saturday at noon. He will receive the applications of men looking for that kind of work.

NAMES BOARDS FOR ATTORNEYS

Men Selected in El Paso and Culberson to Mobilize Lawyers. Austin, Tex., Nov. 24.—Gov. W. P. Hobby today, through the central legal advisory board, announced that personnel of the various county advisory boards throughout the state, there being three members to each board and one board for each of the 256 counties in Texas.

These boards are to mobilize the lawyers in the respective counties to assist, free of charge, the registrars under the selective draft in the preparation of their questionnaires.
